

JJ Pumps — Reels Audio Guide

5 reels · for editing in Edits · posting on Instagram & Facebook

#	Post on	Reel	Length
03	Sat 3 Oct 2026	Built piece by piece	15 sec
07	Tue 13 Oct 2026	What's inside your pump?	18 sec
11	Thu 22 Oct 2026	Looking for dealers	15 sec
14	Thu 29 Oct 2026	3 mistakes that damage your pump	19 sec
16	Tue 3 Nov 2026	Repair and job work	16 sec

All reels go out at **7:30 PM India time (11:00 AM Halifax)**.

How to add audio in Edits, step by step

1. Open **Edits** and tap **+** to start a new project. Pick the reel's .mp4 from the Videos folder.
2. **Music:** tap **Audio**, search one of the suggested terms, pick a track and drag it so its biggest hit lines up with the "biggest hit" time in the beat list.
3. **Voice-over:** tap **Voiceover** (the microphone), press record and read the script. Speak each line at the time shown.
4. If you use both, lower the music to about 20–30% so the voice is clear.
5. Tap **Captions** to auto-add subtitles for the voice-over. Many people watch on mute.
6. Export in 1080p. When posting, choose the matching image from the Covers folder as the cover.

Music rights: a business account can only use tracks from the in-app library marked safe for business, so pick music inside Edits or Instagram rather than a downloaded Bollywood song. Posts with unlicensed music can be muted or blocked.

Built piece by piece

Music

Confident build-up. Clean percussion with a slow rise that lands on a hit when the pump is complete.

Search in Edits: cinematic build up · corporate percussion · industrial rhythm · epic tabla

Sound effects (optional)

A soft metal "clunk" at 3.5, 5.0 and 6.5 sec (search "metal click" or "mechanical lock" in Edits sound effects).

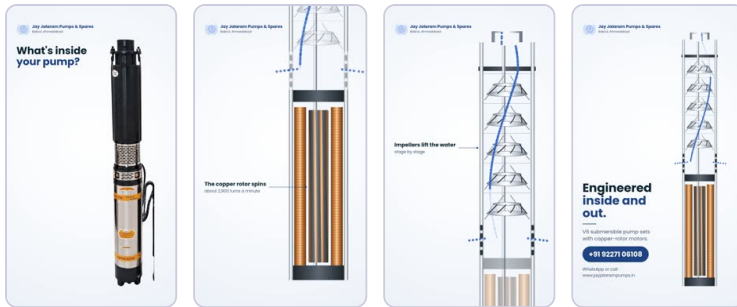

Where the beats land

0.0 s	Title appears
1.0 s	Motor rises into frame
3.5 s	Strainer locks on (blue flash)
5.0 s	Stages lock on (blue flash)
6.5 s	Discharge head locks on: BIGGEST HIT here
7.2 s	Light shine runs down the steel
10.0 s	Pump slides left
11.0 s	End card with phone number

Voice-over script

0–2 s	Every JJ pump starts here.
2–7 s	Copper–rotor motor. Stainless strainer. Pump stages. Discharge head.
7–10 s	Built piece by piece, checked at every joint.
11–15 s	Jay Jalaram Pumps, Ahmedabad. Call or WhatsApp us today.

What's inside your pump?

Music

Calm, curious, a little techy. Soft electronic pulse or ambient piano with a light beat.

Search in Edits: technology ambient · science documentary · minimal electronic · curious explainer

Sound effects (optional)

A low electric hum rising from 3.5 sec, and a soft water "whoosh" from 6.2 sec.

Where the beats land

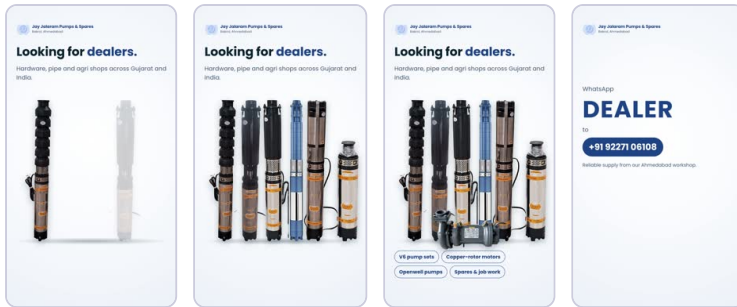

0.0 s	Title: What's inside your pump?
2.4 s	Photo wipes into the cut-open view
3.5 s	Copper rotor starts spinning
4.4 s	Camera pushes into the motor
6.2 s	Water starts flowing up
8.4 s	Camera glides up to the impellers
11.8 s	Stage counter 1-2-3-4-5
15.0 s	End card

Voice-over script

0-3 s	Ever wondered what happens deep inside your borewell?
3-8 s	The copper rotor spins, nearly three thousand turns a minute.
8-12 s	The impellers push the water up, stage by stage.
12-15 s	More stages, more height.
15-18 s	JJ Pumps. Engineered inside and out.

Looking for dealers

Music

Upbeat and business-like. Positive, driving beat that feels like growth and opportunity.

Search in Edits: **upbeat corporate** · **business motivation** · **positive energy** · **indian fusion upbeat**

Sound effects (optional)

A soft "swoosh" as each pump slides in (1.2 to 3.5 sec).

Where the beats land

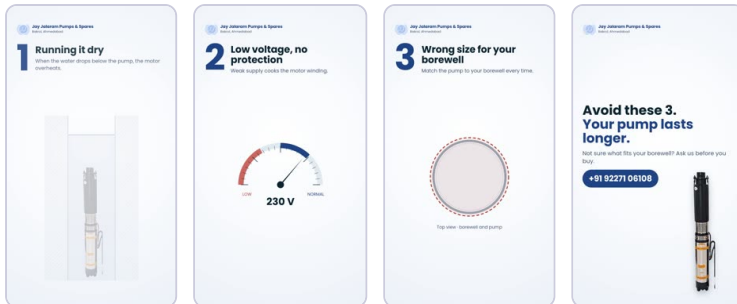

0.0 s	Title: Looking for dealers
1.2 s	Pumps slide in one by one (every half second until 3.5)
4.6 s	Shine across the lineup
6.0 s	Openwell pump appears
6.4 s	Product tags pop in
10.4 s	Big DEALER end card: BIGGEST HIT here

Voice-over script

0–3 s	Do you run a hardware, pipe or agri shop?
3–7 s	Add JJ pumps, motors and spares to your counter.
7–10 s	Reliable supply straight from our Ahmedabad workshop.
10–15 s	WhatsApp "DEALER" to nine two two seven one, zero six one zero eight.

3 mistakes that damage your pump

Music

Serious but helpful. Suspenseful pulse for the mistakes, then a warm, relieved lift at the end card.

Search in Edits: **suspense tension** · **documentary serious** · **ticking clock** · **hopeful resolve**

Sound effects (optional)

A short warning beep at 4.7 sec, a "power down" sound at 8.6 sec, and a soft "ding" at 13.2 sec.

Where the beats land

0.0 s	Title: 3 mistakes
2.0 s	Mistake 1: water level drops
4.7 s	Red warning pulse
6.6 s	Mistake 2: voltage needle falls
11.0 s	Mistake 3: wrong-size pump shakes
13.2 s	Right-size pump fits
15.4 s	End card: switch music to a brighter feel here

Voice-over script

0–2 s	Three mistakes that damage your pump.
2–6 s	One: running it dry. The motor overheats.
6–11 s	Two: low voltage with no protection. Fit a proper starter.
11–15 s	Three: the wrong size for your borewell.
15–19 s	Not sure what fits? Ask JJ Pumps before you buy.

Repair and job work

Music

Hands-on and reassuring. Steady workshop groove, mid tempo.

Search in Edits: [workshop groove](#) · [hip hop](#)
[instrumental chill](#) · [DIY repair](#) · [steady corporate](#)

Sound effects (optional)

A "whoosh" at 3.8 and 5.2 sec, and a click when the pump closes at 9.4 sec.

Where the beats land

0.0 s	Title: Pump not working?
1.4 s	Pump opens up
3.8 s	Worn part slides out
5.2 s	New part slides in
8.2 s	Pump closes back up
9.8 s	Tested tick mark
12.2 s	End card

Voice-over script

0–2 s	Pump not working?
2–6 s	We open it up and replace the worn parts.
6–10 s	Every repaired pump is tested before it goes back.
10–16 s	Repair, spares and job work at JJ Pumps, Bakrol, Ahmedabad.
